

How did it go?

Though most of the sensitive documents are locked, I also stole the password hashes for the entire network. It won't take too long to brute force with a rainbow table.

Besides, the average Zero Day goes undetected for about 10 months. I'll have plenty of time to play around.

And what about Vance Lee?

„Hah“

I have something a bit planned for lover boy...

Hey Dad,

what's up with this wall?
We've been driving by
it for hours...

Didn't you learn this in school?

That's the wall built by
the imperials to keep in-

Wait, that wall?
The teacher told us it
was demolished in 1989.

No, only about 10% was demolished.

Now it's slowly crumbling away, but the remaining parts
act as unspoken barriers between the cities and the slums.

Oh...

Vance, my boy,

You know how to get over the Great Firewall.

so take some time out of your porn once in a
while and learn a bit about your own country.

Haha! Busted!

Wh-what? Porn? What porn?
I don't watch any porn!

And you wouldn't know
unless you've been pocket
sniffing on our modem an-

Oh look! A crack in the wall!
Let's talk about that instead!

Woah!
Everything is so dirty!

What did you expect
poverty to look like?

I don't know...
never thought about it.

Can people really survive like this?

Hey, your old man has lived through worse:
often growing up in China in the 60's.

Seriously,
Dad?

Yup, I had to eat rats and
tree bark for years.

Good.

Hurry, quick!
Lock the doors!

Dad, can we give them something?

Yeah,
we have lots of food and-

no!

The moment you open that window

The moment you look into those eyes

and give in to sympathy

is the moment

they strike

and rob us of everything.

Now let's get out of here.

We can't help them?

They'll be fine.
I survived and so can they.

Okay...
